How to change the page title

In this screenshot you can see that the page title on the French language version was adapted to the French one. But it does not automatically appear in the URL segment. Therefore you need to update the URL segment manually. To do this pls ...

The screenshot displays the TYPO3 backend interface for editing a page. The left sidebar shows the site structure with a list of pages. The main content area is titled 'Edit Page "Concept réutilisable de remplissage de l'eau"'. The 'General' tab is active, showing the following details:

- Page Type:** Magazin Artikel
- Title:** Concept réutilisable de remplissage de l'eau
- Page Title:** Reusable concept filling and serving water
- URL Segment:** <https://www.meiko.fr/fr/vivre-meiko/articles/reusable-concept-filling-and-serving-water>
- Alternative Navigation Title:** (empty field)
- Tagline:** (empty field)
- Translation behavior:** Value of default language (selected)

Then choose „Revert redirects only“.

The screenshot shows the TYPO3 backend interface for editing a page. The left sidebar contains navigation options: Web, Page, List, Info, Mails, L10N Management, File, and Filelist. The main content area displays the 'Edit Page' form for the page titled 'Concept réutilisable de remplissage de l'eau'. The form includes tabs for General, SEO, Metadata, Appearance, Behaviour, Resources, Access, Categories, and Extended. The 'General' tab is active, showing fields for Type (Magazin Artikel), Title (Concept réutilisable de remplissage de l'eau), URL Segment (https://www.meiko.fr/fr/vivre-meiko/articles/concept-reutilisable-de-remplissage-de-leau), Alternative Navigation Title, and Tagline. A blue notification box in the top right corner indicates 'Slugs updated and redirects created' and provides a 'Revert redirects only' button, which is highlighted with a green box and a green arrow. The 'Revert update' button is also visible next to it.

Congrats you've just adapted the page title correctly.
